Maths - Subtraction word problems

You will need to support your child with this activity.

On Tapestry there is a document titled 'Subtraction word problems - 1st May' please download this to find the subtraction word problems. Please choose three word problems to complete.

It is great for your child to see subtraction comes in many forms, one being in a word problem. Please support your child by reading the problem with them and then digesting what it means.

If you had 10 glass bottles and 3 of them smashed, how many of them would you have left?

Example discussion:

- Talk about how many bottles there were.
- Discuss how many objects you will need to support you.
- How many were smashed/taken away.
- What does that mean? What are we doing?
- What is the answer? How do you know.

Daily PE - #PEwithJoe

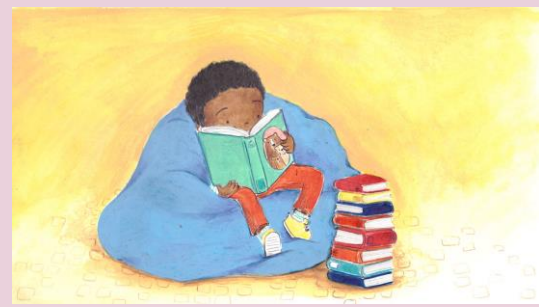

Joe Wicks will be doing daily, fun workouts for children to do at home at **9am** for 30 minutes.
