Maths - Subtraction (taking away)

1. Recap what subtraction means - when we take something away. Does the number/group/objects get smaller/less or bigger/more?
2. Start with a group of objects (up to 12 this time). Encourage your child to count out all of the items at the start (step 1). Then ask them to subtract (take away) a different number of objects practically (step 2) and then count how many are left (step 3). See if they can do this independently once you have supported them.
3. Repeat with different numbers.

Once your child returns to school they will receive a prize and certificate if they if have read daily during their isolation period.

Please use this link to view online ‘banded books’:

Select the ‘levels’ drop down - then ‘book band’ then choose your child's band. Please feel free in this time to explore the book band above your child's current band to challenge them.

Alternatively, please continue to read books ‘for pleasure’.
