- If you wish to continue please complete the following activity:

Like last week when you used chalk in the garden, write sounds (previously learnt sounds or sounds your child is finding it more difficult) on piece of paper and place them around a room. This is a great way to get your child active too.

- When you say the sound, can your child run to the right one.
- If you wish to challenge your child. Say a word with one of the sounds in, can they run to the correct sound.

# Maths - Doubling

In maths this week, we will be looking at doubling. Your child will need to learn that double means 'twice as many'. Your child should be given the opportunity to build doubles using real objects. Start by watching the numberblocks episode - Double Trouble (<https://www.youtube.com/watch?v=6ZnNfVZda6Y&t=198s>) and then complete the activity.

## Activity

- 1) Start by selecting a group of objects (up to 5)
- 2) Ask your child to double the objects (they need to get the same amount again)
- 3) Then ask them to count all the objects to find the double
- 4) Encourage your child to say the doubles as they build them, e.g. double 2 is 4

If you have a mirror your child can use this to see easily the quantity being doubled.
