Can you work out which ones are real words and which are nonsense words?

If you have access to a printer you can print this document off, it is available to download in 'Documents'. Then your child can colour in the real words one colour and nonsense another colour.

You could also write these words out on a piece of paper and your child can colour them in if you don't have access to a printer.

Maths - Doubling

Begin today by recapping what doubling means and then rewatch the numberblocks episode if you feel your child needs a bit more support.

Maths Activity

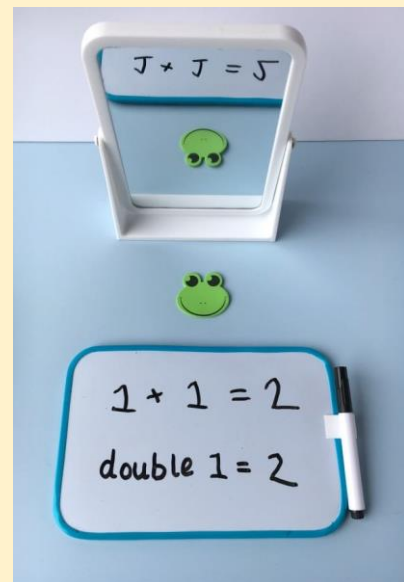

If your child was confident with yesterday's activity then move on to doubling up to 10, if not continue to double up to 5.

- 1) Start by selecting a group of objects (up to 10)
- 2) Ask your child to double the objects (they need to get the same amount again)
- 3) Then ask your to count all the objects to find the double
- 4) Encourage the children to say the doubles as they build them, e.g. double 2 is 4
- 5) Challenge: Can your child have a go at recording it in a number sentence?

They can record either as $_ + _ = _$

Or

Double $_ = _$
