

Maths - Monday

6. Introduction of money and the 1p coin

Introduction of money and the 1p coin

KS1
Multiplication
Lesson 6

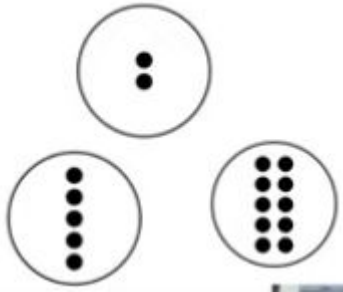

For this lesson you might want to have some 1p coins and make some tokens that represent 1p.

Before the next lesson you might want to find some items around your house to make your own shop. Label the items with price tags. Now you can practise buying things from your shop. Maybe you would like to play this with an adult or a sibling.

Introduction of money and the 1p coin

For the next lesson you will need different types of coins worth different amounts of money.

You will also need the tokens you have made in previous lessons. The 2s, 5s and 10s.
