Hello there, Parents and Carers!

As schools worldwide close for now in response to COVID-19, you might be wondering how best to help your child or children with their studies at home.

Always happy to help, the White Rose Maths Team has prepared a series of five maths lessons for each year group from Year 1-8. We will be adding five more each week for the next few weeks. Every lesson comes with a short video showing you clearly and simply how to help your child to complete the activity successfully.

Maths

Watch the video and answer the questions.

Complete the activity (if you don't have a printer just record your answer on paper)

Click on summer term week 1 and find ...

Lesson 1 - Find a half (2)

There is also adult guidance to ask your child questions.

Find a Half (2)
Adult Guidance with Question Prompts

Children learn that half means one of two equal parts and whole means complete. Children investigate halving objects, shapes and drawings. They split, describe and count measurements as they study, measurements of halves. Children could use groups of counters to show halves.

How much gold is in the whole group?
What do you need to do to find half?
How many equal groups do you need to make?
How can you do this?
Are the two groups equal?
Which baskets are missing from the whole amount?

How many coins are in the whole group?
What can you do to find half?
Can you think the coin amount?

Each set of rings have been split into two groups.
Which sets of rings have been halved?
How will you know?
What items are you looking for?

Split counters into two groups.
Can your friend spot the groups that have been halved?
What was the whole group? How many are in each half?

Find a Half (2)

Draw a ring around half of the gold.
