Maths -

Download a 100 square (here is an interactive one).

<https://www.topmarks.co.uk/learning-to-count/paint-the-squares>

Find a partner to play the game with you. Each player needs a different colour to mark their place on the board.

Start on number 1 on the hundred square. Choose a number from the row of numbers starting with 21. Multiply the two digits together to get the number of moves you take. E.g. I might choose 23 so I calculate $2 \times 3 = 6$ so I move 6 places and land on 6.

Take it in turns with your partner, choosing a number between 21 and 29 each time.

The winner is the person who lands on 100 exactly.

Repeat the game but choose numbers from the row beginning with 51. Who can get to 100 first?

Daily Reading

There is still an expectation for daily reading to take place at home. Please continue to note this in the school/home contact book.

If you have finished your books from home there are e-books available.
