

Home Learning- Year 4

25.3.2020

All of these activities mirror the learning assignments set on Google Classroom. If you are having issues using Google Classroom please look on the school website for helpsheets. Available on Google Classroom are editable worksheets for the children to use which will be sent directly back to us however, it is also fine to do any tasks on paper at home.

English

Using either the book you are currently reading or the book that you have just finished reading, we'd like you to redesign the front cover.

You'll need to use what you know about the story, the characters and the genre of your book to help you to redesign it.

This activity should take about half an hour to complete.

Maths

This morning for your maths work we'd like you to complete the third lesson on <https://whiterosemaths.com/homelearning/year-4/> (titled Lesson 3- Tenths on a place value grid).

First watch the video, then have a go at the worksheet, you can either print the work sheet or look at it on a computer and write your answers on paper.

This activity should take about half an hour.

We'd also still like you to practice your times tables on TT Rockstars and number bonds on Numbots.

Art/DT

Using an African animal as inspiration, can you create a piece of art using any materials?

Here are some ideas:

- Collage
- Painting
- Drawing
- 3D model
- Paper mache model

This activity should take about an hour to complete.
