Have a look at the powerpoint to help you remember the key words and information you'll need to complete this food chain. You can choose a habitat (for example: ocean, rainforest, garden...) and choose at least 4 animals or organisms to add to your food chain. Use the key words: consumer, producer, prey and predator. Make sure your arrows are pointing in the correct direction to show which way the energy is transferring. You can be as creative as you'd like by drawing the animals or using lots of bold colours.</p>

This project will be stretched over two weeks to give you time to plan, create and evaluate. WEEK ONE- design and planning. WEEK TWO- making and evaluating.</p> <p>Today, we would like you to look at the attached ideas and research Roman Shield ideas on the internet. Then, we would like you to draw/ print and stick up to five of your favourite designs. Next, choose the one you are going to make and draw it clearly. Explain why you have chosen this design and what it represents. After that, list all the materials and equipment you will need and finally, write out the steps you will follow when you make your shield. We appreciate you may not have many materials, paint etc at home so try to be creative with recycleable items such as cereal packets, cardboard, coloured paper etc.</p>
