Twig and twine worry dolls

Twig and twine worry dolls

You are going to make little figures out of twigs and wool. They are really fun to make and every single one will look different. We have made them at home and then used them to make up our own stories. You can keep creating new characters.

Hair made from wool and twine.

A dress made from an old sock.

A body made of twigs

You will need:

- twigs
- twine/wool
- small pieces of rag or material.
- scissors

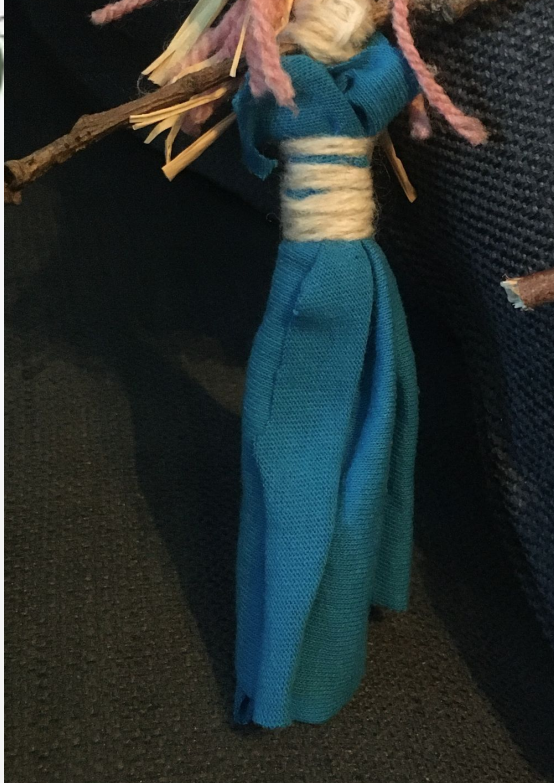

- 
1. Go for a walk and collect some twigs. You can find some really interesting shaped twigs. Try to find 'Y' shaped twigs as this will help to make the legs and arms.

2. Join your twigs together using a piece of twine. Wrap it around diagonally to make it secure.

3. Dress your doll using any old piece of material. Wrap it around the middle of your twig figure and then wrap wool around the middle to keep it in place..

4. Make your hair. Cut several pieces of wool and then fold them over the top of your twig. Wrap another piece of twig around the middle to keep it in place. You can then trim your 'hair' to the right length.
