

# Maths

## *Multiplication section 2*

6. The use of a repeated addition expression to represent equal groups

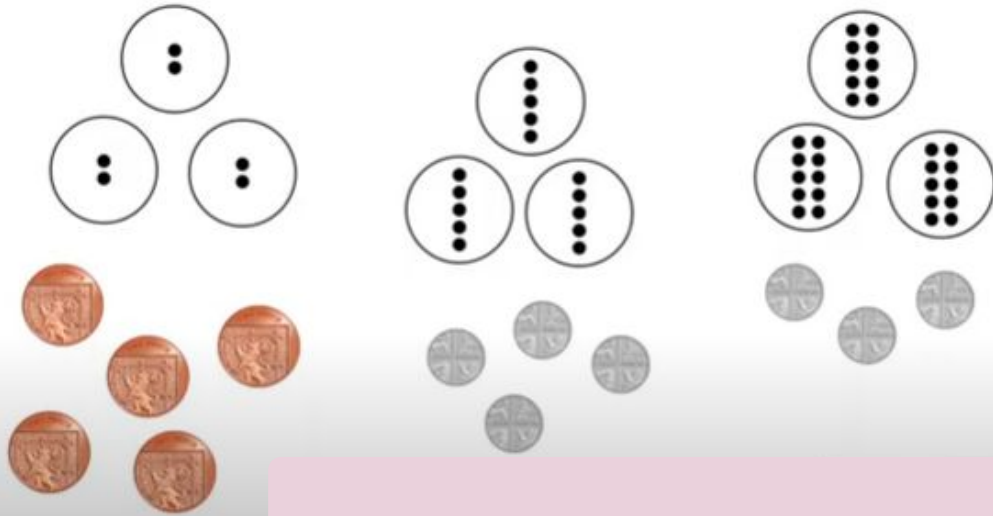

KS1  
Multiplication 2  
**Lesson 6**

You might want to use some resources such as plates and pasta to help you practically with today's lesson.

## Practise Activity

Practice activity

Use your coins and tokens from previous lessons to practise writing repeated addition calculations.

Click on the link and complete the questions for lesson
