

Roman Gods Card Game

I can tell you the names of some of the main Roman gods and write about what they represented to the Roman people.

To create the game:

Research the god/goddess on each card using the information on the **Lesson Presentation**, books and the Internet. Write a short description and draw a picture of each god/goddess, then decide on a score for each category on the card: power, skill, weapon and importance.

How to play: (2-4 players would be best for this game)

Shuffle the cards and share them out. Make sure you keep the cards in your pile in the same order. The first player looks at one of their cards and chooses a category they think their card is strongest on. Read it out. All players share the score on their card for that category. The player with the highest score wins all of the cards, which they put at the bottom of their pile. It is then their turn to pick the next category.

- Does your game work?
- Did you come across any problems?
- Do you need to adjust any of the category scores to make the game work better?
