

Roman Gods Collecting Facts

Game Instructions

Play with a partner. The aim of the game is to get your god or goddess from start to finish before the others. Roll the dice and move that number of spaces.

Setting Up the Board

Set up the board by placing the fact cards, obstacle cards and bonus cards face down on the correct card spaces on the board. Each player chooses a counter and places them on the start square. The first player will roll the dice and move forward however many spaces it indicates on the dice.

How to Win the Game

When you reach the end space, you have to be able to recall five facts you have learned along the way in order to win. Speak these out loud to your opponent. If you cannot remember five facts, you must go back ten spaces to try to collect more facts.

Fact Spaces

If you land on a fact space, take a fact card and read it **to yourself**. Try to remember that fact. When you have finished, put the card back at the bottom of the pile.

Obstacle Spaces

If you land on an obstacle space, take an obstacle card and read it **out loud**. Follow the directions on the card and when you have finished, place the card at the bottom of the pile.

Bonus Spaces

If you land on a bonus space, take a bonus card and read it **out loud**. Follow the directions on the card and when you have finished, place the card at the bottom of the pile.
