

Lesson 9: Solve calculations mentally by relating them to known facts

For this lesson you will need a piece of paper, pencil and a ruler.

The graphic features a light blue background with a circular inset showing a piece of lined paper. On the paper, the equation $6.4 =$ is written in purple. Below it, a vertical arrow points down to a rectangular box, with $+0.7$ written in red next to the arrow. To the right of the box is an equals sign. To the left of the circular inset, the text 'Upper KS2 Number, Addition and Subtraction' is written in blue, and 'Lesson 9' is written in a larger blue font below it.

Keep the notes that you make in the lesson today. Tomorrow you will review them before beginning your new learning.

Quiz

Open the quiz on Google Classroom and complete the questions for lesson 9.
